

LOCATING A VETERINARIAN FOR YOUR EXOTIC PET

If you need help finding an exotics pet veterinarian near your area, this may be able to help you:

- Bird veterinarians: <https://www.aav.org/page/FindAVet2/Find-A-Vet-Search.htm>
- Reptile and Amphibian veterinarians: <https://arav.site-ym.com/search/custom.asp?id=3661>
- Small mammal veterinarians: <https://aemv.site-ym.com/search/custom.asp?id=5188>
- Fish and aquatic species veterinarians: <https://www.wavma.org/find-a-fish-vet>

You may also be able to locate a veterinarian in your area with experience that can help your pet, but it may require some phone calls or a Google Search for “exotic pet veterinarians near me”

Other options may include contacting a local zoo, aquarium, wildlife rehabilitation center, veterinary college, and/or pet store, and asking which veterinarians provide care for their animals - those veterinarians may also be able to help you and your pet.

Please note that depending on your location, you may have to travel several hours to a hospital or clinic that can provide specialized care for your exotic pet.
